-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Election/Restrictions*

Applicant's election without traverse of the

compound: in the reply  
filed on February 26, 2008 is acknowledged. The requirement is still deemed proper and  
made FINAL.

Applicant's elected species has been determined to be free of the prior art.  
Additionally, the examiner has rejoined claim 20, being drawn only to the method of the  
allowable compound.

The examiner extended the search within claim 1 to the species BIM-23A387.  
Because the art does not specify the structure for BIM-23A387, claims 2 and 3 are  
withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a  
nonelected invention/species, there being no allowable generic or linking claim. Election  
was made **without** traverse in the reply filed on February 26, 2008.

### *Allowable Subject Matter*

**Claims 12 and 20** are objected to as being dependent upon a rejected base claim,  
but would be allowable if rewritten in independent form including all of the limitations of  
the base claim and any intervening claims.

***Specification***

The disclosure is objected to because of the following informalities:

The specification is not in compliance with 37 CFR § 1.58 (a) which states, “The specification, including the claims, may contain chemical and mathematical formulae, but shall not contain drawings or flow diagrams. The description portion of the specification may contain tables, but the same tables may only be included in both the drawings and description portion of the specification if the application was filed under 35 U.S.C. 371. Claims may contain tables either if necessary to conform to 35 U.S.C. 112 or if otherwise found to be desirable.”

Specifically, pages 40-52 and 55-60 of the instant disclosure include chemical schemes embraced by this rule.

As such, Applicant is required to furnish a drawing under 37 CFR § 1.81(c). No new matter may be introduced in the required drawing. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either “Replacement Sheet” or “New Sheet” pursuant to 37 CFR 1.121(d).

Appropriate correction is required.

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

**Claim 1** is rejected under 35 U.S.C. 102(b) as being anticipated by SAVEANU (IDS 11/8/05).

Saveanu teaches the chimeric somatostatin dopamine compound BIM-23A387 (e.g. title).
